PROFESSIONAL SUMMARY

Frontend and Full Stack Web Developer experienced in building and maintaining web applications, CMS platforms, device monitoring systems, learning management systems, e-commerce solutions, and IoT-integrated products. Hands-on with JavaScript, TypeScript, Vue.js, React.js, Next.js, PHP, and Laravel, with additional experience in REST API integration, debugging, deployment, and production support.

TECHNICAL SKILLS

Frontend: JavaScript, TypeScript, Vue.js, React.js, Next.js, HTML, CSS, Tailwind CSS, Bootstrap

Backend: PHP, Laravel

Integration: REST APIs, third-party APIs, payment gateways, IoT integration

Tools and Delivery: Git, debugging, testing, deployment, server configuration, production troubleshooting

PROFESSIONAL EXPERIENCE

PT Sentuh Digital Teknologi - Frontend Developer

Jul 2025 - Present

- Develop and maintain web-based systems for enterprise, education, cloud, and IoT-related projects based on user and client requirements.
- Build and enhance CMS, Learning Management System, Device Monitoring System, cloud platform, and Smart Meeting Room features.
- Integrate frontend applications with backend APIs and IoT-connected devices for monitoring and device-control workflows.
- Perform debugging, testing, maintenance, deployment support, server configuration, application monitoring, and production troubleshooting.
- Collaborate with developers, project managers, QA, and other stakeholders to translate requirements into stable and maintainable application features.

Selected projects: BNI CMS, Antara News CMS, Immigration CMS, Campus LMS, Salin Cloud, DMS, Smart Meeting Room, MDM Kimia Farma, DMS Bank Muamalat

PT Buiten Technology - Frontend Developer

Oct 2024 - Jun 2025

- Developed responsive web interfaces, management dashboards, and CMS features based on product and client requirements.
- Implemented frontend integrations with APIs and backend services, including data-driven dashboard workflows.
- Performed debugging, testing, UI revisions, and cross-device responsiveness improvements.
- Collaborated with the team throughout planning, implementation, revision, and project delivery.

Selected projects: Photobooth CMS, cryptocurrency platform UI, Car Wash dashboard, company profile websites

PT Exenesia Digital Solutions - Full Stack Developer

Jan 2022 - Oct 2024

- Developed web applications for education, government, corporate, retail, and operational business needs.
- Built responsive interfaces and application features for e-commerce, point-of-sale, job portal, conference, and company profile solutions.
- Integrated frontend applications with APIs and backend systems and supported debugging, testing, maintenance, and feature improvements.
- Worked with the team to analyze requirements, implement revisions, and deliver solutions aligned with user and business needs.

Selected projects: ICAS 2024 IPB, Silancar Nakertranskonut, Labella Online Store, Naira Sneakers, Dipinus POS, PT KSN

EDUCATION

SMK Adi Sanggoro - Software Engineering, Jun 2023 - Jul 2025
